DEPARTMENT OF GERMAN

BIBLIOGRAPHY

OF THE

BEST BOOKS FOR THE STUDY OF GERMAN
IN HIGH SCHOOLS AND JUNIOR COLLEGES

UNIVERSITY OF CALIFORNIA PRESS
BERKELEY

1917

This bibliography is intended to aid teachers of German in selecting books and periodicals for their own libraries and those of their schools, and to give information as to the maps and charts needed in modern instruction; with a few unavoidable exceptions, it does not include text-books for the use of students.

Copies are being sent at this time (May, 1917) to all teachers of German and to all principals of high schools in California; additional copies may be obtained from the undersigned.

A supplementary list of teachers' aids,—“Lehrmittel” of all kinds, for use in class and in German clubs—such as wall pictures, plays suitable for school performances, song books and books on German games, collections of riddles, etc., is now in preparation.

With regard to text-books, the attention of teachers is called to the library of the Department of German of the State University, in the office of the department, 400 Wheeler Hall. It was founded fifteen years ago for the use of the department and of teachers of German generally in making the best possible choice of text-books for their classes. It contains all German text-books published in America, and is being constantly kept up to date. Teachers of German are cordially invited to avail themselves of the unique facilities which the completeness of this library affords for the examination and comparison of the grammars, dictionaries, composition books, editions of texts, etc., published by the various American firms.

H. K. Schilling,
401 Wheeler Hall.

No recommendations can be made as to works of more recent literature.

For the use of pupils in assigned or voluntary outside reading, a high school or junior college library should also contain a considerable number of easy, interesting texts (short stories and novels, modern and thoroughly German, and a few well selected plays) in school editions such as are published by a number of American firms. In this connection, attention is also called to Heyse's *Novellenschatz* (listed under XI) and to the excellent series called "Wiesbadener Volksbücher," 166 volumes published by the *Volksbildungsverein* Wiesbaden and averaging in price \$0.15.
